

Your Reefer Shipping Solution

Modern Multipurpose Fleet

As global reefer shipping needs grow, Swire Shipping has your solution. Our modern and eco-friendly multipurpose fleet is equipped with state-of-the-art reefer containers to ensure optimal cooling and temperature control. Together with our team of reefer specialists and extensive coverage of the Asia-Pacific region, Swire Shipping is well-positioned to ensure the effective and reliable shipment of your refrigerated cargo.

Optimum Temperature Control

Swire Shipping has invested in Magnum Plus reefer containers designed to optimise cargo volume while maintaining minimum heat and air leakage (capable of temperatures ranging from -40°C to +28°C).

The design of our reefer containers provides the following benefits:

- Maximum payload through low unit tare weight
- Maximum cargo volume through spacious internal volume
- Maintenance of optimal temperature through minimal heat and air leakage

Personal Care

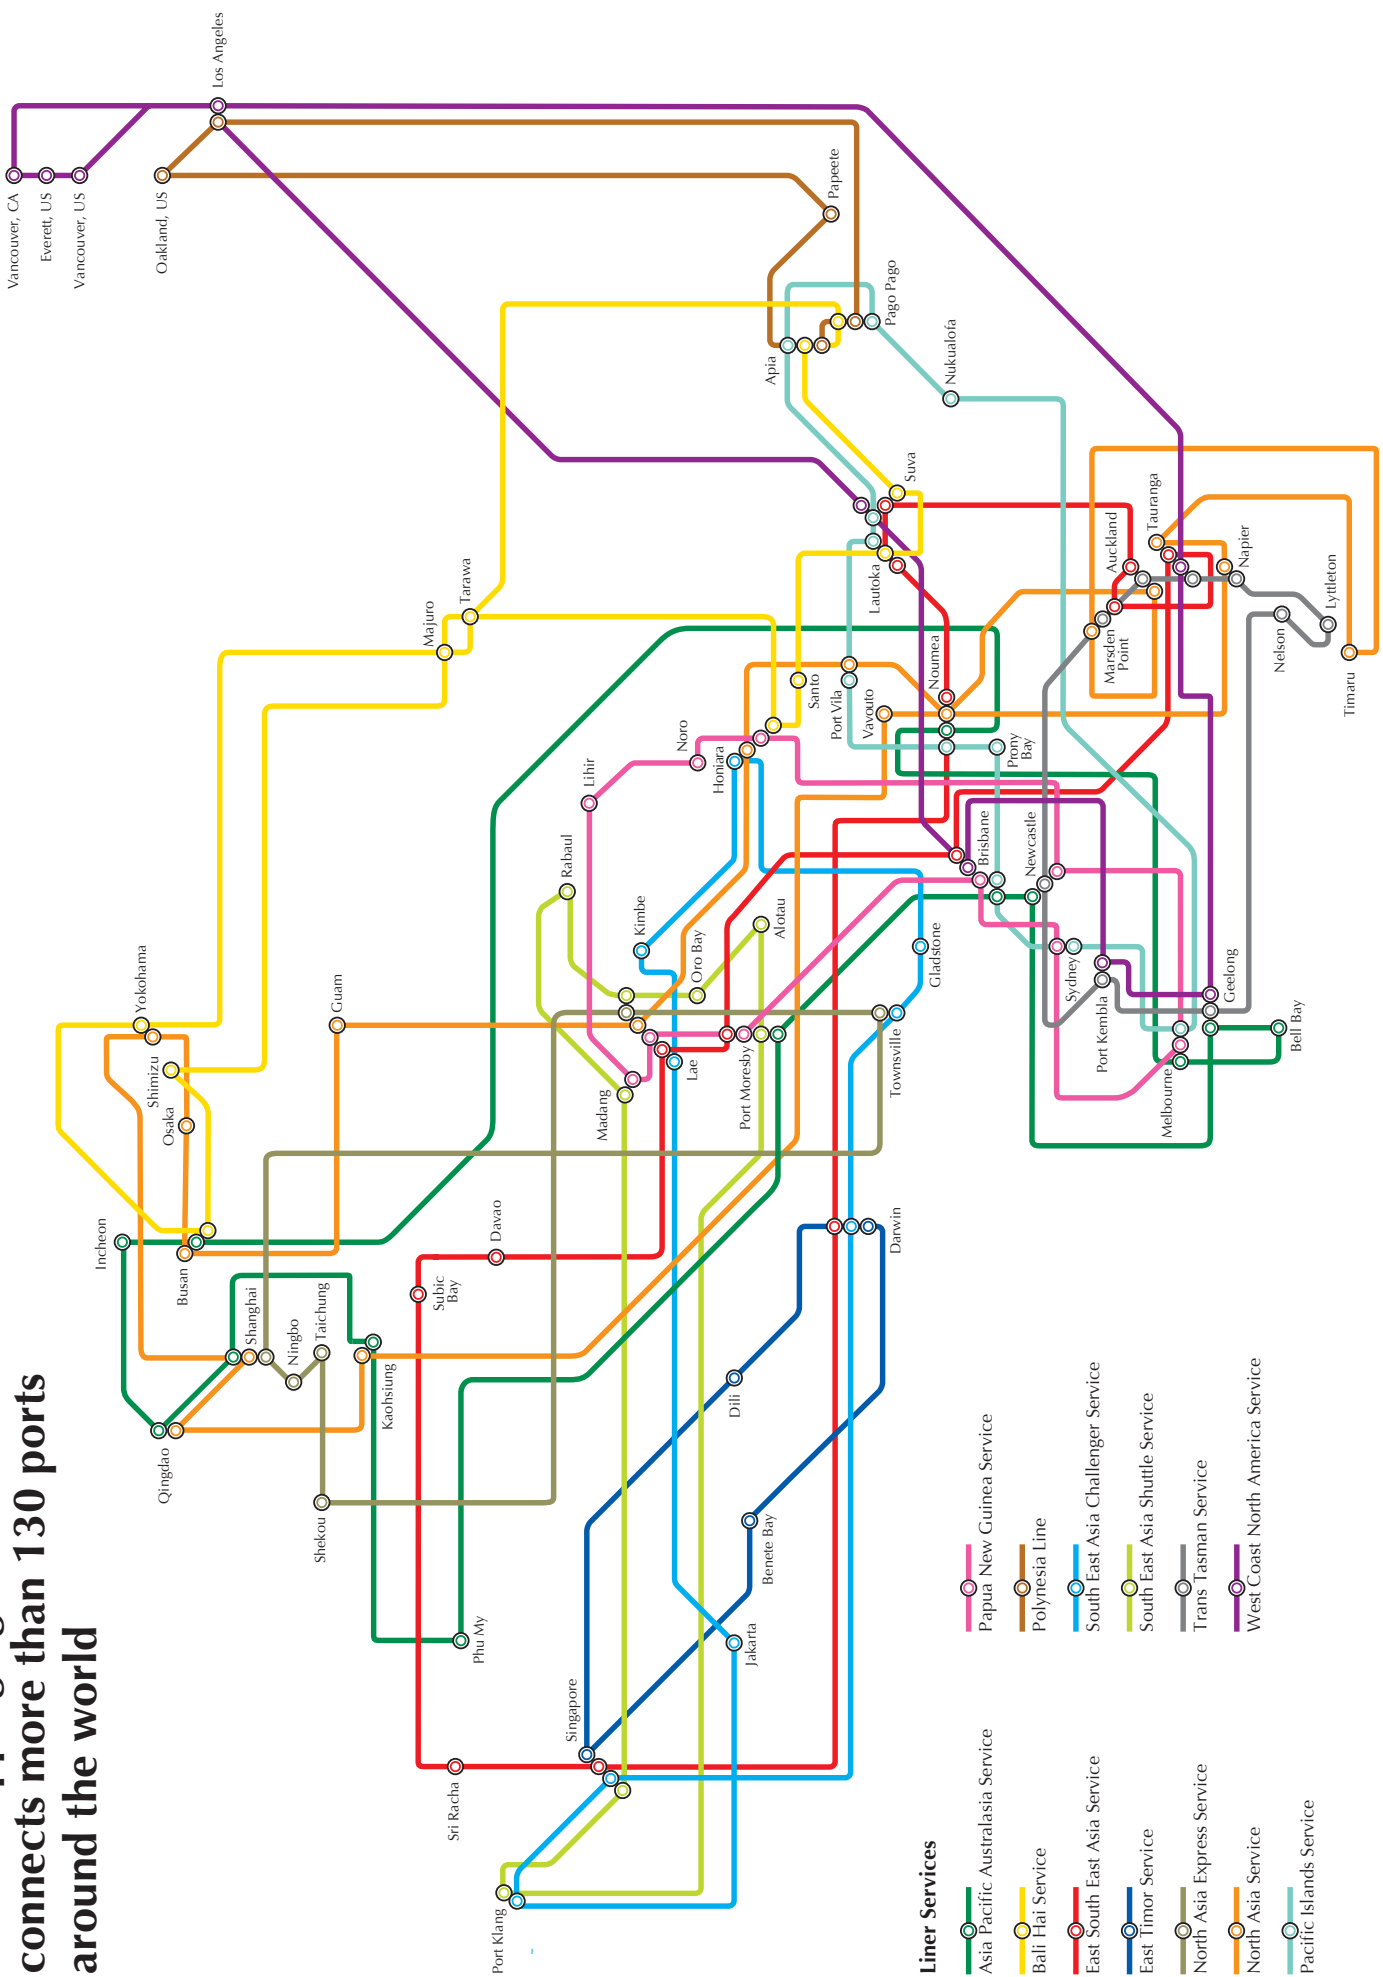

Our dedicated team of specialists is available around the clock to provide reefer consultation and support for all chilled cargo types.

For more information, please contact Swire Shipping at **+65 9231 5689** or email **reefersupport@swirecnco.com**.

- 20' Magnum Plus Reefers (temperature setting of down to -40°C)
- 40' High Cube Magnum Reefers (temperature setting of down to -40°C)
