

Japan Phytosanitary Certificate requirements for Timber & Logs

Description

Effective 5 August 2023 a phytosanitary certificate is required by the Japan Ministry of Agriculture, Forestry and Fisheries(MAFF) for the following commodities;

- Logs
- Timber
- Bark
- Sphagnum moss
- Pisum satvium (dried peas for consumption).

The Japan Plant and Forestry ICPR's [Importing Countries Phytosanitary Requirements] are reviewed regularly and updated as appropriate.

For further information regarding JAPAN Quarantine requirements go to: [MAFF JAPAN](#)
