Temporary Suspension of Bookings for Middle East Shipments

Dear Valued Customer,

In light of the evolving conditions in the Middle East, Swire Shipping is temporarily suspending the acceptance of all bookings to and from the region until further notice.

This precaution follows broader transport disruptions in the area and reflects the same careful, safety-first approach seen across the wider transport industry, where several carriers have also adjusted operations in response to regional developments.

Our teams are monitoring developments closely to determine when booking acceptance can resume. We will keep customers updated as the situation progresses.

For any queries or support required, please contact your local Swire Shipping representative.

Best regards

Swire Shipping
