Australia - Pacific Island Service (PIS)

Tonnage Swap – NPDL TAHITI V.2610S Phase Out

Dear Valued Customers,

Please be advised that the *NPDL TAHITI* V.2610S will phase out of the PIS at Port Vila and will not return to the Australian coast as originally scheduled. Due to terminal constraints in Suva, cargoes that were planned for discharge upon re-berth remained on board. The vessel will reinstate Port Vila to discharge local import cargo. Thereafter, the remaining onboard cargo will continue on the same vessel, with discharge and onward connection arrangements currently under review. Further details will be provided once confirmed.

All bookings made under *NPDL TAHITI* V.2612N and V.2612S will be transferred to the following *TAKUTAI CHIEF* V.2613N and V.2613S.

To ensure service continuity, *CAPITAINE TUPAIA* V.2614N is scheduled to phase into the PIS on 17 June 2026 at Sydney, replacing *NPDL TAHITI* V.2614N position, and will proceed with the standard PIS rotation thereafter.

Please find below schedules for your reference. These tentative dates will also be reflected in our schedule published this week.
