WHICH FITS YOU BEST?

	LONG TERM PURCHASE	SHORT TERM LEASE
 Container Management	Ownership of containers gives you stability and control over your assets.	Offers flexibility to adjust container needs, without long-term commitments.
 Cost Feasibility	Purchasing containers outright is often more cost-effective than leasing, especially long-term.	Requires minimal upfront costs, making it more accessible for businesses with limited capital.
 Customisation & Maintenance	Purchased containers can be modified to meet specific needs, branding, fittings, or structure.	All repairs - excluding fair wear and tear items are for lease account.
 The Upper Hand	Containers are an investment, retaining resale value when no longer needed.	Leasing provides access to updated container models and technologies with various features.
